Pick any two-digit number.

Add its digits together.

Subtract the new number from your original number.

Look up the special symbol next to your answer.

Concentrate very carefully, and make your special symbol materialize on the back of this page!

Be a “psychic”!

Keep the secret by cutting off this part of the page. Tell your friend that you can read their mind: Give them the instructions to find a symbol and tell them to concentrate on it. Then you can “read their mind”!

What’s the trick?

You can probably work out the gist of it if you look closely.

Why does this trick work?
