

Annual Institutional Participation 2026

The National Museum of Mathematics (MoMath) offers a unique palette of opportunities for institutional involvement. This is organized into two main series: Institutional Sponsorships, which encompass the aspects of a museum relationship that give visibility to the support that the organization is providing MoMath's mission; and Institutional Memberships, which focus on benefits for the employees of an organization.

Note that an organization may combine these options to tailor its involvement to its particular needs and desires. Any organization that funds both a Sponsorship and a Membership will receive a 10% discount on the Membership fee.
